Re: *Assessment of Corrective Measures*
Closed Butner MSW Landfill
Granville County
Solid Waste Section Permit Number 39-02
DIN 19185

Dear Mr. Falls:

The Solid Waste Section has completed a review of the *Assessment of Corrective Measures* report dated May 17, 2013 (DIN 19056) and submitted by Joyce Engineering on behalf of Granville County for the Granville County Closed Butner MSW Landfill. The *Assessment of Corrective Measures* report was submitted in accordance with 15A NCAC 13B .1635.

Granville County is now ready to proceed with the selection of a remedy to restore groundwater quality at and beyond the relevant point of compliance, to effectively reduce the groundwater contamination at the facility, and to control the migration of contaminated groundwater to prevent unacceptable impacts to human health and the environment. The selected remedy must meet the requirements listed within 15A NCAC 13B .1635 - .1637 and 15A NCAC 2L.

In accordance with 15A NCAC 13B .1635, Granville County is required to conduct a public meeting within 90 days of receipt of this letter to discuss the results of the *Assessment of Corrective Measures* report. After the public meeting, Granville County shall select an effective remedy and within 14 days of selecting a remedy, submit the completed Groundwater Corrective Action Permit Modification Application located at http://portal.ncdenr.org/c/document_library/get_file?uuid=510adee4-776b-4bf5-b35d-ef3c3be16c2c&groupId=38361. The Solid Waste Section will then review the County's selected remedy.

Once the Solid Waste Section approves the selected remedy, Granville County is then required to submit a Corrective Action Plan (CAP) within 90 days of the approval of the selected remedy. The Solid Waste Section will review the County's CAP, approve, or request additional information prior to its implementation. The implementation of the approved CAP shall take place in accordance with 15A NCAC 13B .1637. The intent of this letter is to clarify what has been accomplished thus far and what will be required in the near future to implement groundwater corrective action at this facility.

If you have any questions or concerns regarding this letter, please feel free to contact me at 919-707-8294 or by email at jaclynne.drummond@ncdenr.gov. Thank you for your continued cooperation with this matter.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jaclynne Drummond', with a stylized, cursive script.
